L3-2(s) Moving stand, leave dog

Note: This exercise is part of a multi-sign station. Pair this sign with L3-3, 4, 5, 6, 7, 10, 11(s), 12(s) or 13.

At the station sign, the handler asks the dog to stand-stay without coming to a stop first and without sitting. The handler is permitted to move out of heel position when cueing the stand. The handler leaves the dog in the stand position and walks alone to the next station sign.

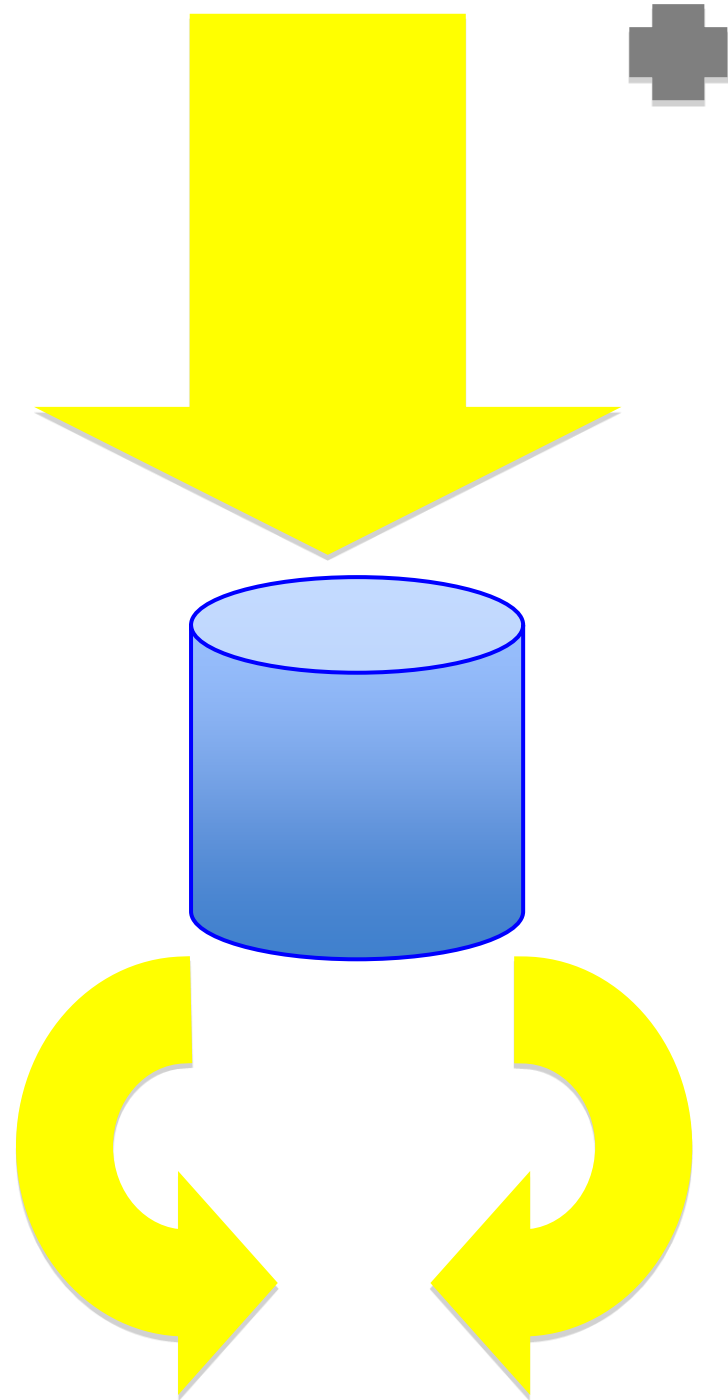

**MOVING
STAND,
LEAVE DOG**

L3-3 Recall through tunnel, forward

Note: This exercise is part of a multi-sign station. Pair this sign with L3-2(s) or L3-9(s).

On reaching the station, which is placed approx 3m away from the end of the tunnel closest to this station sign, the handler turns to face the dog. The dog is recalled through the tunnel and finishes at the handler's left heel by walking directly to the left heel position, or by walking around the handler to the right. When the dog arrives at the handler's left heel, the team immediately moves forward to the next station. There is NO sit. There is no requirement for the dog to come to the front of the handler, he is permitted to go straight to the handler's left heel.

L3-4 Face dog, call to heel, forward

Note: This exercise is part of a multi-sign station. Pair this sign with L3-2(s) or L3-9(s).

On reaching the station, which is placed approx 3m away from the first sign, the handler turns to face the dog. The dog is called directly to the handler's left heel by moving directly to the left heel position, or by moving around the handler to the right. Then the dog arrives at the handler's left heel, the team immediately moves forward to the next station. There is NO sit. The dog is required to go straight to the handler's left heel, not stop in front of the handler.

**FACE DOG,
CALL TO
HEEL,
FORWARD**

L3-5(s) Distance down, sit, return

Note: This exercise is part of a multi-sign station. Pair this sign with L3-2(s) or L3-9(s).

On reaching the station, which is placed approx 3m away from the first sign, the handler turns to face the dog. The dog is asked to lie down, then sit preferably without moving forward, but certainly without moving more than a body length forward. The exercise ends when the handler returns to the dog and takes up heel position, with the dog remaining in the sit

**FACE DOG,
DISTANCE
DOWN, SIT
RETURN**

L3-6(s) Recall, down, L/R, forward

Note: This exercise is part of a multi-sign station. Pair this sign with L3-2(s) or L3-9(s).

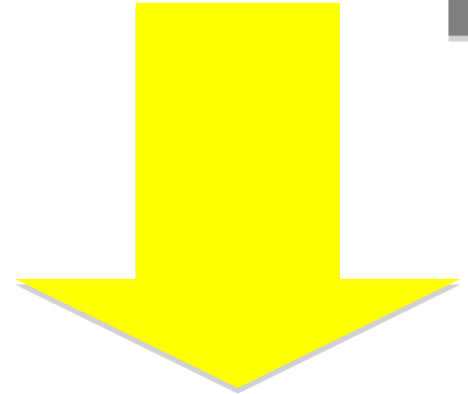

On reaching the station, which is placed approx 4.5m away from the first sign, the handler turns to face the dog. The dog is recalled. At any point, but more than 1m from the handler, the dog is asked to stop and lie down mid-recall. He is then recalled again, this time being allowed to reach the handler. The dog should move to the handler's left heel by moving directly to the left heel position, or by moving around the handler to the right. When the dog arrives at the handler's left heel, the team immediately moves forward to the next station. There is NO sit. The dog is permitted to go straight to the handler's left heel, not stop in front of the handler.

DOWN,
FORWARD**

L3-16(s) Call front, stop, U turn left, forward

The handler stops moving forward and calls the dog to move in front of them, facing the handler. The handler may take several steps backwards in order to help the dog achieve the correct position. When the dog arrives in front he must sit. The handler then moves so that they are standing beside their dog in the heel position. Then the team walks 180° smoothly to the left. This turn should arc rather than turn sharply.

CALL FRONT

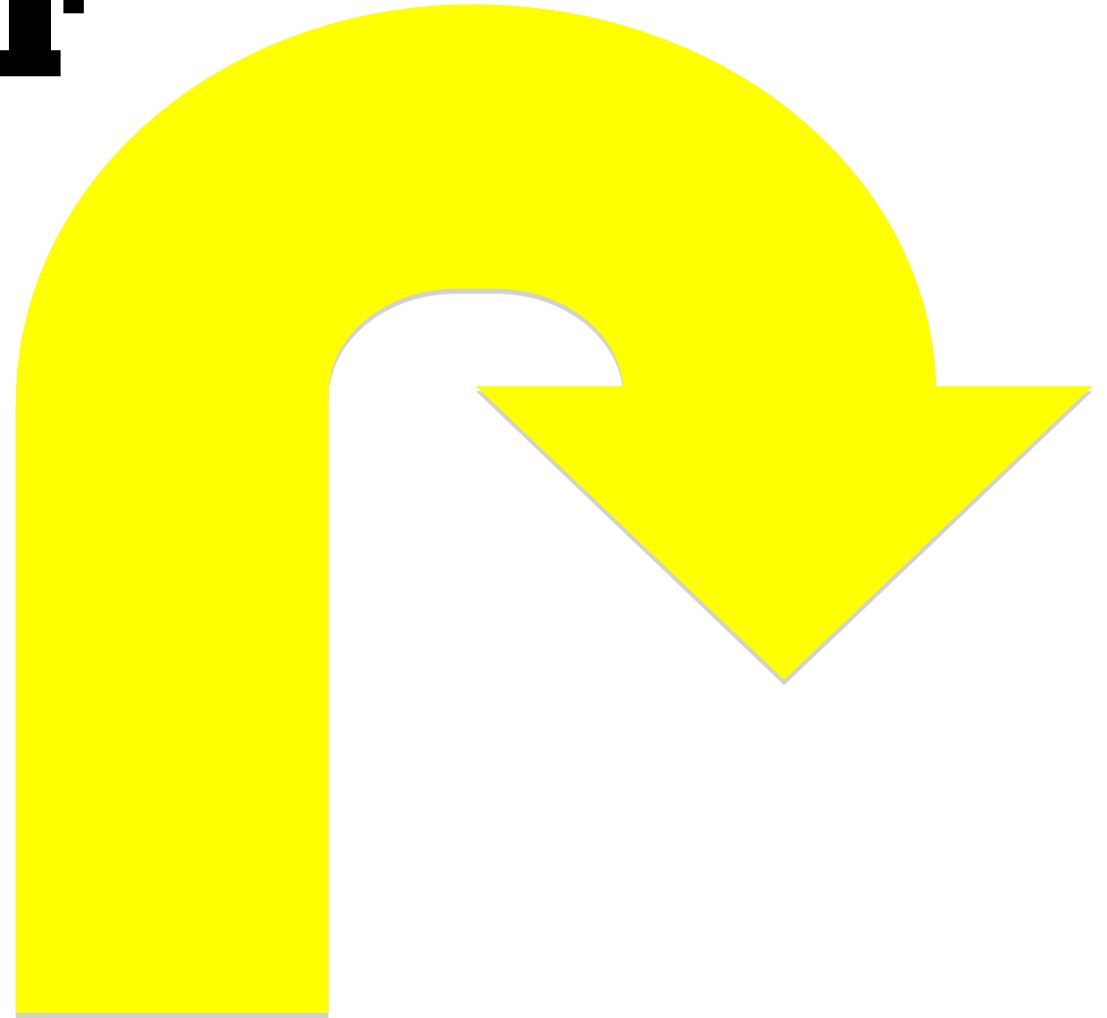

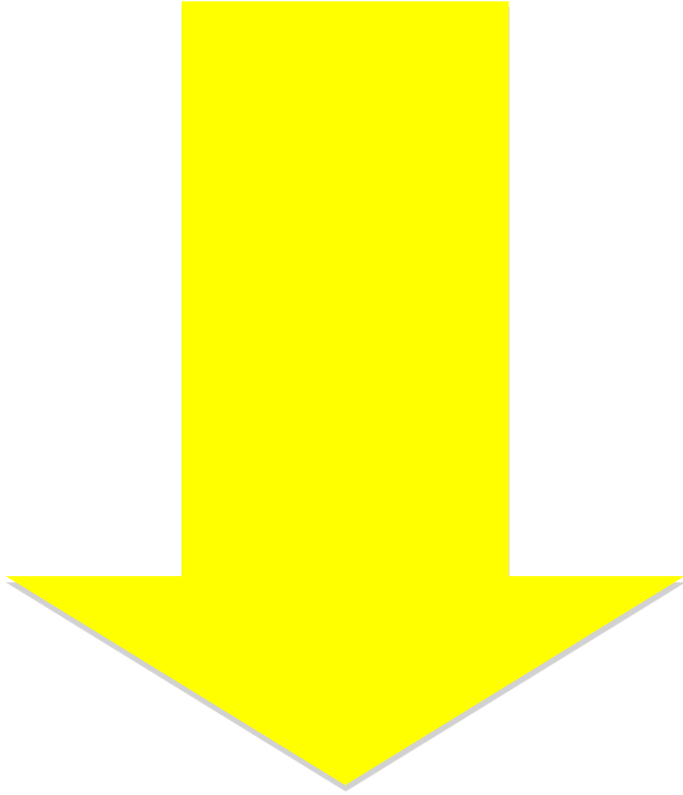

**U TURN LEFT
FORWARD**

L3-17(s) Call front, stop, U turn right, forward

The handler stops moving forward and calls the dog to move in front of them, facing the handler. The handler may take several steps backwards in order to help the dog achieve the correct position. When the dog arrives in front he must sit. The handler then moves so that they are standing beside their dog in the heel position. Then the team walks 180° smoothly to the right. This turn should arc rather than turn sharply.

CALL FRONT

U TURN RIGHT FORWARD

L3-B1 Retrieve, right finish

Note: The judge will place the retrieve article (provided by the handler) approximately 4.5m from the station sign before the team starts the course.

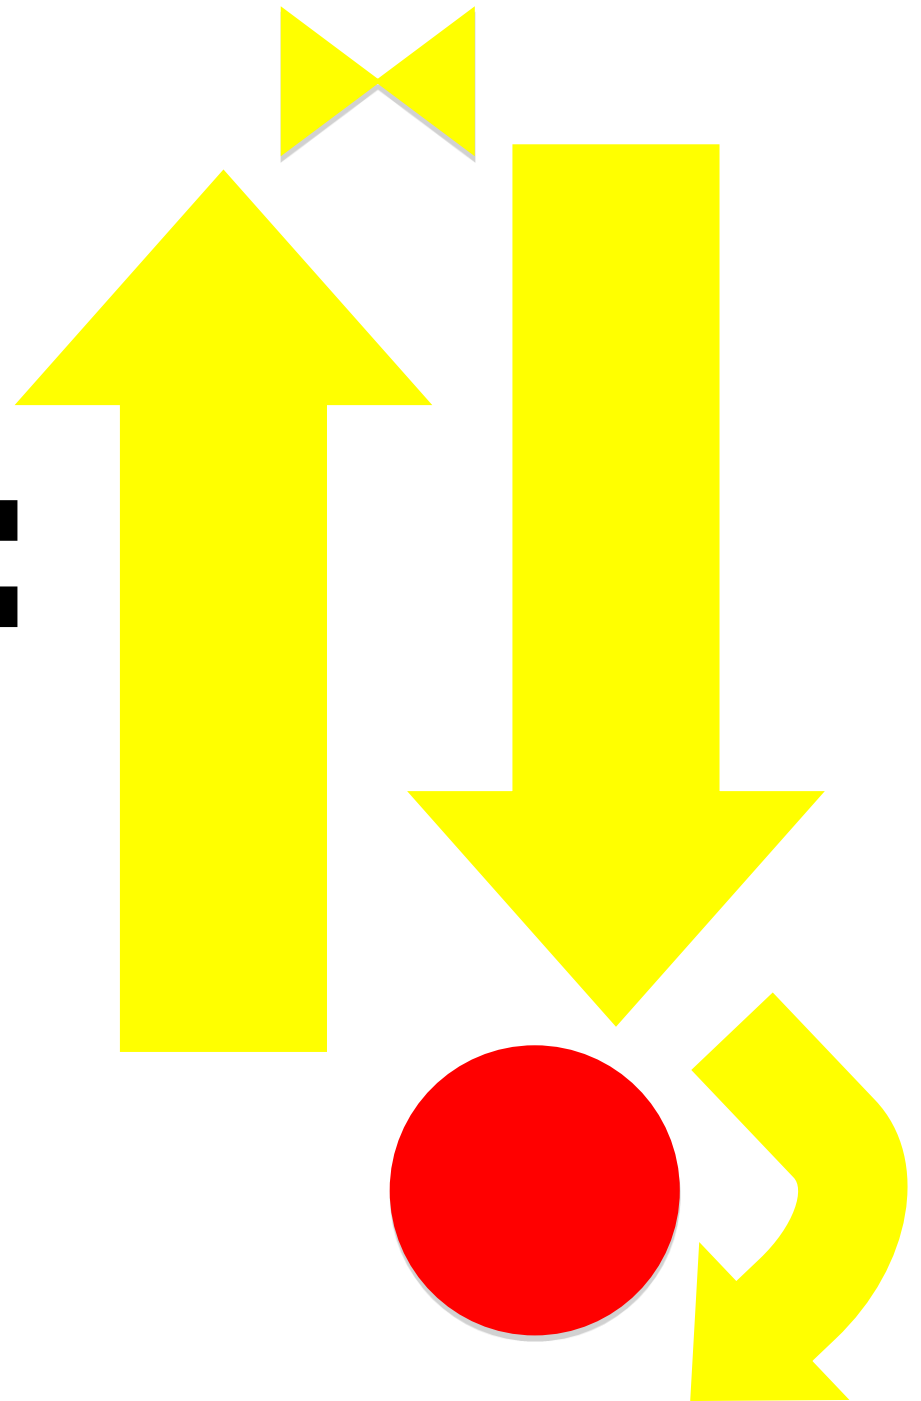

At the station sign the handler sends the dog to collect the retrieve article. The dog brings it back to the handler and sits in front of them. The handler takes the article. Then the handler asks the dog to finish at their left heel, by walking around the handler to the right, where the dog ends the station in a sit.

RETRIEVE

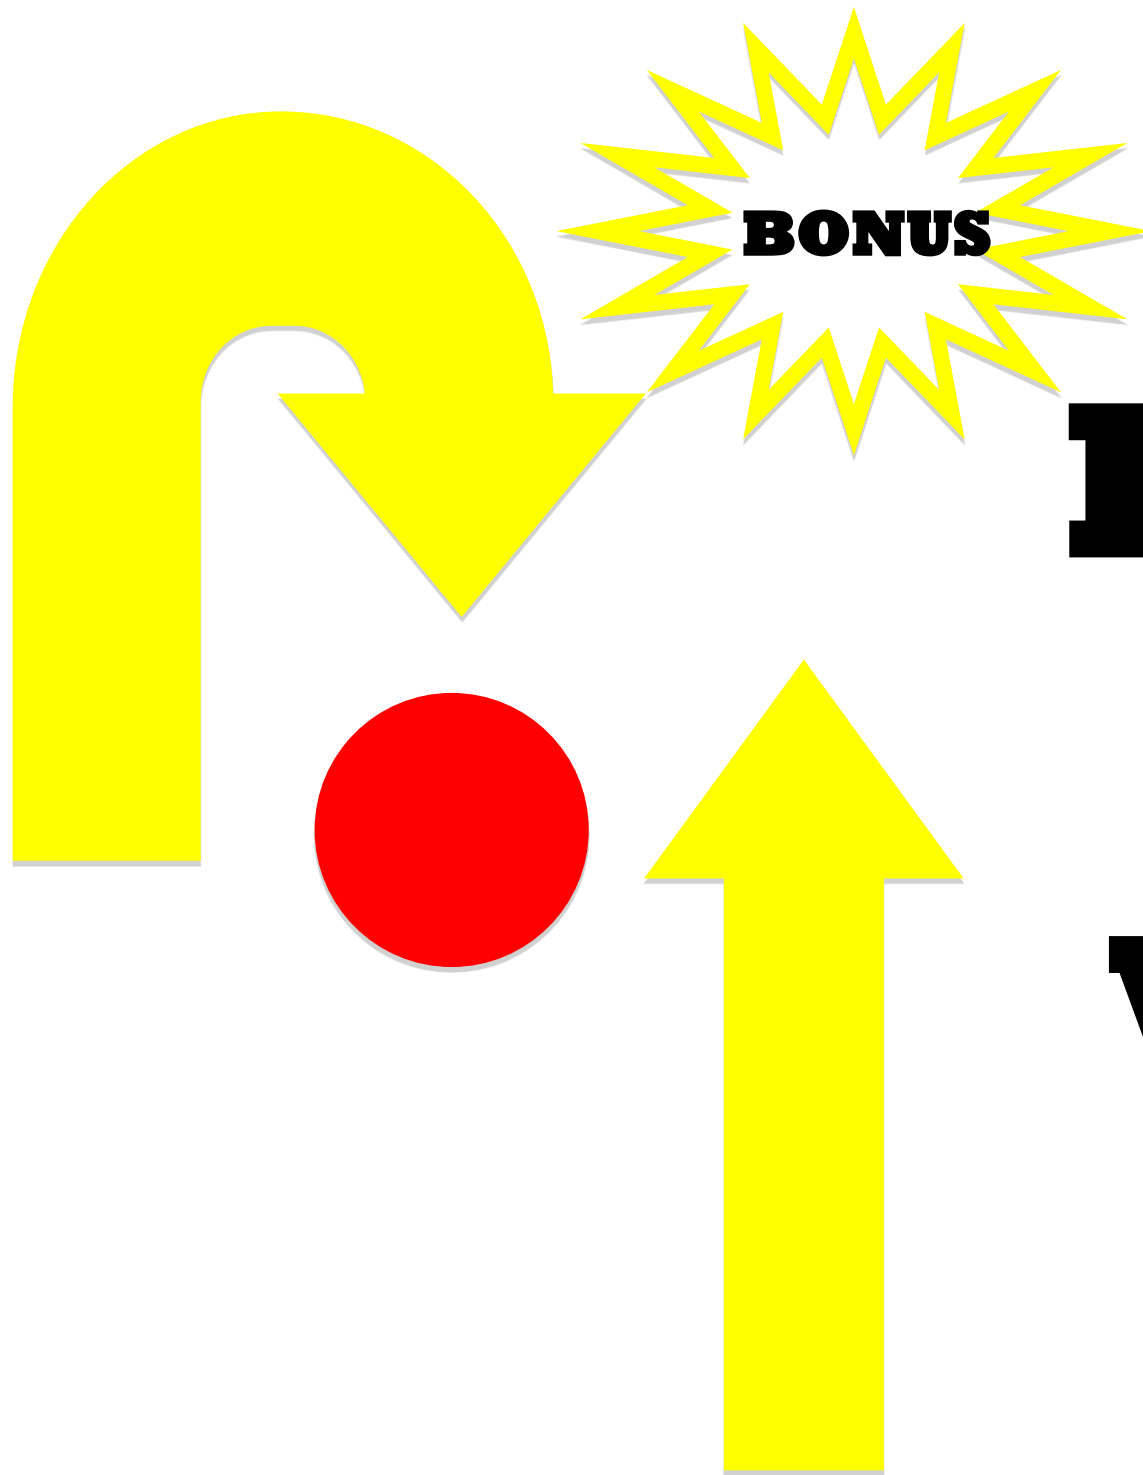

RIGHT

FINISH

L3-B2 Call front, dog walks back

The handler stops moving forward and calls the dog to move in front of them, facing the handler. The handler may take several steps backwards in order to help the dog achieve the correct position. When the dog arrives in front he must sit. The dog is then asked to walk backwards. As the dog walks backwards, the handler takes **3 steps** forward. The dog should walk in a straight line, facing the handler. There is NO requirement for the dog to sit at the end of the exercise. The station is complete when the team stops after taking their 3 steps.

**CALL
FRONT,
DOG
WALKS
BACK**

L3-B3 Call front side-step left or right

The handler stops moving forward and calls the dog to move in front of them, facing the handler. The handler may take several steps backwards in order to help the dog achieve the correct position. When the dog arrives in front he sits. The handler then takes a sideways step to the left or right. As they move, the dog should simultaneously stand and move sideways, continuing to face the handler. As the handler stops so should the dog, who then sits. The team should move in sync.
